Table 4. Body Mass Index Screening Results for Children in Grade 7 in Massachusetts School Districts, 2014-2015

School District	Total number of students screened (N)	Males				Females				Males and Females
		Healthy Weight	Over-weight	Obese	Over-weight or Obese	Healthy Weight	Over-weight	Obese	Over-weight or Obese	Over-weight or Obese
		(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)

Notes: Data that did not pass data quality tests were excluded from the analysis.

Definitions: *Underweight* – BMI for age percentile < 5th percentile; *Healthy weight* – BMI for age percentile between 5th and 85th percentile; *Overweight* – BMI for age percentile between 85th and 95th percentile; *Obese* – BMI for age percentile ≥ 95th percentile.

* Data is suppressed due to the small number of individuals in this cell. NA: Not Applicable (No students in this group were screened).

Notes

Data Source

Number of public school districts and organizations submitting data: 298

Category of Screening for 2014-2015 School Year	Number of Students	Percent of MA Enrollment in Grades 1, 4, 7, 10
Total Massachusetts public school enrollment, grades 1,4,7,10	285,690	100 %
Students screened in public school districts, grades 1,4,7,10, included in data tables	242,193	85 %
Student enrollment in public school districts, grades 1,4,7,10, excluded from tables due to errors in generating or reporting the data	3,711	1 %
Students in public school districts, grades 1,4,7,10, BMI data not reported*	39,786	14 %

* The number of students in the “BMI data not reported” category includes 4,507 students (2% of enrollment) whose parents opted out of the screening. Parents could opt out of the BMI screening by submitting a request to the school that their child’s measurements not be taken at school.

The organizational entities that submitted data include local public school districts, academic regional school districts, school unions, vocational-technical regional school districts, agricultural school districts, charter school districts, and educational collaboratives. Data from private schools were not included.

Percentages may not add up to 100% due to rounding error.

Data Quality

Data that did not pass quality tests and could not be verified were excluded from the analysis.

As a result of the data testing process, questions were raised about the accuracy of some or all of the data submitted by 40 districts, and about the low percentage of students screened in 4 additional districts. DPH contacted the 40 districts that had submitted questionable data and requested that they re-check their data and either provide corrected data or an explanation for the anomaly. Of these districts, 25 submitted corrected data reports and 6 districts confirmed their original data. Some or all of the data from 9 districts were excluded because the size or pattern of the inconsistency was substantial and the district was either unable to find or check their records, unable to provide corrected or verified data in time for it to be included in this report, or did not respond to the request for clarification.

Finally, some or all of the data from 4 districts were excluded because the percentage of students screened was unacceptably low. If a district submitted a report with a low screening percentage in a single grade, then the data from that grade were excluded while the data from the remaining grades were still eligible to be included in the report.

Cases in which fewer than 10 students were screened are noted in the tables. Rates in districts with a small number of screened students should be interpreted cautiously due to the instability of estimates when small numbers are involved.

BMI statistics may vary from year to year due to factors that do not reflect long-term trends. Increases or decreases in any single year should be interpreted with caution.

Aggregation of Regional Data

The school districts in most cities and towns serve elementary, middle, and high school students and the BMI statistics for those districts reflect overweight and obesity levels for students in grades 1, 4, 7 and 10. In some small cities and towns, however, schools are organized into regional school districts, with elementary school students attending schools in one district, middle school students attending schools in a another district, and high school students attending schools in yet a third district. The specific organizational structure of these school districts varies by region. As a result, there may be more than one local or regional school district serving students from the same community or region. In these cases, when separate BMI statistics are reported for each district, it provides a scattered picture of the weight status of students from those towns. In order to provide a more unified view of the weight status of students in those towns and regions, wherever possible DPH combined BMI statistics from all of the districts serving the same geographical area. The following list shows which districts were combined into a single record in the data tables that follow. To find BMI statistics for the district listed in the left-hand column, look up the district shown in the right-hand column.

District report that was combined with regional data

BERKLEY
BERLIN
BOYLSTON
BREWSTER
EASTHAM
EDGARTOWN
HALIFAX
HAWLEMONT
KINGSTON
LANESBOROUGH
LINCOLN
MARION
MATTAPOISETT
NAHANT

Key

School Unions are comprised of several small districts. The following table lists the School Unions mentioned in the report, and identifies the districts included.

School Union

ERVING (SCHOOL UNION 28)

FRONTIER (SCHOOL UNION 23)

HAMPSHIRE (SCHOOL UNION 66)

District

ERVING
LEVERETT
NEW SALEM-WENDELL
SHUTESBURY
CONWAY
DEERFIELD
SUNDERLAND
WHATELY
CHESTERFIELD-GOSHEN

MARTHA'S VINEYARD (SCHOOL UNION 19)

NAUSET (SCHOOL UNION 54)

NORTHERN BERKSHIRE (SCHOOL UNION 43)

OLD ROCHESTER (SCHOOL UNION 55)

SHAKER MOUNTAIN (SCHOOL UNION 70)

SILVER LAKE (SCHOOL UNION 31)

TANTASQUA (SCHOOL UNION 61)

TRI-TOWN SCHOOL UNION (SCHOOL UNION 58)

SOUTHAMPTON
WESTHAMPTON
WILLIAMSBURG
EDGARTOWN
OAK BLUFFS
TISBURY
UP-ISLAND
BREWSTER
EASTHAM
ORLEANS
WELLFLEET
CLARKSBURG
